

# Nathan Allen

## SUMMARY

I am experienced in audio engineering, theatre sound engineering, and live production. I am also experienced in electronic repair, wiring, fabrication, planning, and designing and implementing audio systems. I have sales and customer service experience. I am decisive and accurate. I am motivated by helping others. I am talented at finding creative solutions to unique problems.

## EXPERIENCE

### MADISON STREET THEATER and OVATION ACADEMY, Theatre Sound Engineer

- I am the sound engineer for performances at Madison Street Theater. I am responsible for maintaining microphones, helping actors in and out of their microphones, programming the Behringer X32 (I use TheatreMix), mixing for the full production schedule including a designer run, tech rehearsals, and performances.
- I produce microphone tracking reports and show reports.

*September 2025 - present (contract)*

### JACOBS SCHOOL OF MUSIC at INDIANA UNIVERSITY, Audio Engineer

- I mixed FOH for Musical Arts Center productions like Jacobs Live at the Movies' presentation of Dreamworks' How to Train Your Dragon, a film accompanied by a sound reinforced live orchestra. I mixed operas, orchestras, concert bands, and choirs down to stereo recordings for use in Indiana University's vast archive of Jacobs events.
- In this role, I gained experience with the Allen and Heath Avantis, SQ-6, and the Yamaha DM2000.
- I produced documents like patch sheets, file archival reports, and I encoded event metadata.
- I made microphone selections and microphone placement decisions. I rigged and flew microphones.
- I supervised assistants with responsibilities like battery management, microphone placement, and setup/strike.
- I programmed Dante patches and I am Dante Level 3 certified. I gained experience editing audio files in WaveLab. I used Pro Tools to record multitrack sessions of the events.

*August 2022 - May 2025*

### FIRST CHRISTIAN CHURCH, Director of Online Worship, Audio Engineer

- First Christian Church in Bloomington, IN broadcasts their service weekly via a YouTube livestream.
- I directed the audio mix and video broadcast of the service.
- I managed PTZ cameras and other networked video and audio equipment, like the Yamaha Tio1608, TF1, and the broadcasting computer's NDI interface.
- I made repairs to the audio system. I troubleshooted issues, pulled wire and soldered new connectors.

*May 2024 - July 2025*

### CONSTELLATION STAGE AND SCREEN, Theatre Sound Engineer

- I was the A1 for two shows during Constellation Stage and Screen's 2023 season.
- I was responsible for maintaining the audio system and microphones.

*May 2023 - August 2023 (contract)*

### INDIANA UNIVERSITY, Marketing Videographer/Photographer

- For the Recreation Sports department of the Office of Student Life, I produced weekly photo galleries of athletic events and videos of students engaging with Rec Sports.

*August 2023 - May 2024*

### SWEETWATER SOUND, Sales Engineer

- I specialized in selling pro audio equipment, home audio equipment, and live A/V systems.

*August 2021 - August 2022*

## INTERNSHIP

### SECRETLY GROUP, Intern

- Secretly Group is a family of American independent record labels.
- I interned for the Social Media Marketing team and the Online Storefront team.
- My tasks included updating storefront listings, pricing, collecting user-generated content for use in marketing, and creating social media content.

*May 2024 - July 2025*

## EDUCATION

### BACHELOR OF SCIENCE, INDIANA UNIVERSITY JACOBS SCHOOL OF MUSIC

Audio Engineering, with a Concentration in Information Technology and a Certificate in Analog Audio Electronics
